Charting the Conservative Course

ABOUT THE NAVIGATORS GUILD

The American Compass Navigators Guild brings together our community of donors to engage more actively with each other and with the Compass team. While funding is vital to any political movement, the nature of our project attracts an especially thoughtful, focused, and innovative group of supporters with both the desire and ability to help substantively advance our work. We proudly recognize Guild members for their partnership with American Compass and provide opportunities for them to participate more intimately in our shared cause.

Through their leadership and generosity, members of the Navigators Guild serve as ambassadors and have a direct and positive impact on American Compass's work.

They enjoy:

- Access to American Compass's experts and initiatives;
- Invitations to private events and the opportunity to partner on hosting events;
- Recognition at public events and in our annual report; and
- Regular updates from executive director Oren Cass through both conference calls and an exclusive newsletter about what we are reading, thinking about, and working on.

In all these ways, and through the support they provide the organization, Guild members play a prominent role in charting the course of conservative thought and policy for the good of all Americans.
